

CHEMISTRY SEMINAR SERIES (Spring 2007)

1. Dr. Tom Morton, Department of Chemistry, University of California, Riverside; "Stereochemical Studies of Ionic Reactions in the Gas-Phase" (April 24, 2007)
2. Dr. Bruno Figadere, Department of Entomology, University of California, Riverside; "Discovery, Synthesis, and Development of New Drugs against Leishmaniasis" (April 03, 2008)
3. Dr. Liang Xue, Johns Hopkins University, Baltimore; "Nucleic Acid Chemistry: Molecular Recognition and Chemical Sensors" (March 06, 2007)
4. Dr. Doug Tobias, School of Physical Sciences, University of California, Irvine; "Ions at the Air-Water and Membrane-Water Interfaces" (February 13, 2007)
5. Dr. Fratissek Turecek, Department of Chemistry, University of Washington, Seattle; "Peptide Radicals and Cation Radicals in the Gas-Phase" (January 30, 2007)
6. Dr. Haifeng Ji, Institute for Micromanufacturing, Louisiana Tech University, Ruston; "Nanomechanical Sensors for Biomedical, Environmental, and Pharmaceutical Applications" (January 23, 2007)
