

CHEMISTRY SEMINAR SERIES (Spring 2008)

1. Dr. Peter B. Kelly, Department of Chemistry, University of California, Davis; "Applications of Mass Spectrometry to Environmental Chemistry" (April 22, 2008)
2. Professor Jiannong Ye, Department of Chemistry, East China Normal University, Shanghai, China; "Application and Exploration of CE-EC in its Conventional, Small-sized, and Miniaturized Versions" (April 11, 2008)
3. Dr. Carlito B. Lebrilla, Department of Chemistry, University of California, Davis; "Analytical Methods for Elucidating the Human Glycome - Implications to Disease Marker Discovery and Nutrition" (March 04, 2008)
4. Dr. Dave Robinson, Energy Systems Group, Sandia National Laboratories Livermore; "Nanoporous Materials for Electrical Energy Storage" (February 19, 2008)
5. Dr. Eric Person, Forensic Science Program Director, California State University, Fresno; "The Role of a Chemist in Clandestine Laboratory Investigation" (February 12, 2008)
6. Phillip Chou and Mike Cleary, E&J Gallo Winery; "Aroma, Color, Mouthfeel, and Taste Chemistry in Grapes and Wine" (January 29, 2008)
