General
All papers will be refereed and selected papers will be considered for publication in a special edition of an *International Journal*. Please follow the instructions while preparing the paper.

Manuscripts
The original manuscript should be submitted on 8 ½” X 11” paper, with **double spaced typing and 1” margin on all sides**. The text should be typewritten on one side of the paper only. **Papers should be 20 - 35 pages in length upon submittal.** Please submit your paper electronically, preferably in MS Word.

A complete typescript should include, in the following order: title, author(s), address(es), abstract, keywords, biographical notes, introduction, text, acknowledgements, references, and notes, tables, figure captions, figures.

**Title, abstract, keywords, addresses, biographical notes**
*Title:* Maximum 25 words
*Abstract:* Maximum 150
*Keywords:* Maximum 10 words or phrases
*Address:* Author/s title, affiliated department & institution, full mailing address, and e-mail
*Biographical notes:* 60 words per author, maximum 150.

References and notes
A list of references should directly follow the text and acknowledgements. A numbering system in which references and notes are placed in the same sequence should be used. In the text, a reference is indicated by a number in square brackets, e.g. [1]. This system avoids footnotes.

Full references and short notes should then be placed in number order at the end of the text.

References should be made only to works that are published, accepted for publication (not merely ‘submitted’), or available through libraries or institutions. Any other source should be qualified by a note regarding availability. Full reference should include all authors names and initials, date of publication, title of paper, title of publication (underlined), volume and issue number (of a journal), publisher and form (books, conference proceedings), page numbers.

**Notes** should make a specific point, and be short and succinct.

**Figures**
Figures should be submitted in a form suitable for direct reproduction. All illustrations are referred to as Figures and are numbered sequentially. Please place them at the end of the paper, rather than interspersed in the text. Each figure should be cited in the text and marked in the left margin of the manuscript.

Originals of line diagrams will be photographically reduced and used directly, so please prepare them to the highest possible standards. Submission of digital images means more efficient production. Please bear in mind that lettering may be reduced in size by a factor of 2 or 3, and that fine lines may disappear.

**Tables**
Tables should be typed on separate sheets without vertical lines.

**Formulae and symbols**
Formulae and symbols must be written legibly. Characters that are easily confused [e.g. 0 (numeral) and O (letter)] should be distinguished clearly.

Formulae and symbols are typeset in *italics* and should be written or marked for such in the manuscript, unless they require a different styling.

Equations and displayed formulæ should be numbered consecutively. In mathematical expressions, the proper hierarchy of parentheses {[( ])} is to be observed.

The international system of units of measurement (SI) should be used.

Acronyms should also be spelled out.

**Submission Deadline: February 8, 2008**
Please submit the original manuscript along with two copies and an electronic copy of the document in Microsoft Word format on a 3 ½” IBM formatted disk to:

**Ravi Jain**
Dean School of Engineering and Computer Science
University of the Pacific
