OLLI at Pacific
Learning adventures designed for adults 50 or older
When we least expect it, life sets us a challenge to test our courage and willingness to change; at such a moment, there is no point in pretending that nothing has happened or in saying that we are not yet ready. The challenge will not wait. Life does not look back.”

Paulo Coelho
AUTHOR, THE ALCHEMIST
Dear OLLI members, affiliates and community,

What an extraordinary time we are living through. I believe that OLLI at Pacific and all of our wonderful instructors rose up to meet the challenge of the COVID-19 pandemic. And I am extremely proud of all the OLLI members who braved this new world of distance learning with us.

Once we realized how serious the COVID-19 pandemic had become and the decision had been made to postpone our spring semester, I asked Joanna, "What can we do to best help our members?" After some discussion, we knew that we would serve our community best by finding a way to continue to provide educational opportunities.

I am happy to say that we were able to continue our weekly lecture series through the end of June. We also continued to provide 14 different classes and courses online with Zoom, including all of our art classes, health and wellness classes and much more. I feel fortunate that we live in a time that we have this technology available.

That being said, we are approaching the fall semester with cautious optimism. Our popular OLLI lecture series will be offered via Zoom on Mondays 3:30–5 p.m. with BONUS lectures on select Thursdays. We continue to follow university guidelines and are making plans to offer “HyFlex” programming this fall. “HyFlex” programming will mean that a class will have limited in-person seating due to social distancing along with remote learning. The instructor will be live on Zoom at the same time they are providing instruction in class. It gives you the option to choose. However, if we are required to adapt to another "shelter-in-place" scenario, we are fully prepared to completely shift to distance learning, if necessary.

Some members have mentioned that they may not be ready to meet in person or attend classes in the fall as they continue to take precautions against the COVID-19 virus. They asked how they could continue to support OLLI at Pacific. The best and most important thing you can do to support OLLI is to become a member, even if you aren’t ready to come back to see us. We base our programming and revenue on the number of current OLLI members.

Additionally, for those who faced financial hardship due to the COVID-19 virus, we are opening up our scholarship program to returning members in addition to new ones. On a first-come, first-served basis. The scholarship pays for your membership for one academic year.

I am so grateful to all those who took this journey with us these past few months. Even though we had to remain physically apart, we were in this together and we learned together. Isn’t that what OLLI is all about, learning new things together? I miss our OLLI at Pacific community so much and I can’t wait to see you all in person again.

Most sincerely,

Jennifer Juanitas,
PROGRAM DIRECTOR, OLLI AT PACIFIC

Still Gorgeous at 90

Sylvia Minnick, Author and Historian
Built in 1930 at the cost of $240,000, Stockton’s Fox California Theatre became a showcase for the ages. This spring, she will be 90 years young. Stockton’s Fox was one of many other Fox California theatres built around the same time and is now one of only 26 that have survived. The theatre has been host to many different entertainers over the years. Hear her story, including how she became the Bob Hope Theatre.

“Hey, what’s so funny?” An Exploration of Humor
OCT. 12
Alexis Easton, Retired United Methodist Clergy
How’s your sense of humor? Since a majority of people believe they have “an above-average sense of humor,” it’s likely that some of us are not as funny as we think we are. But what is a “good sense of humor,” anyway? Does it require that we make folks laugh? What role do genetics and gender play? How does laughter heal? We’ll chuckle a bit as we explore these serious questions.

The 2020 US Elections and Our Polarization Crisis-Part II
OCT. 19
Gene Bigler, Retired Scholar-Diplomat
“How Assessing the Campaign and Voter Reactions” will review how the major presidential and party campaigns are being developed nationally and in California. We’ll discuss signs of influence on political polarization, as well as the prospects for political healing. Special attention will also be given to efforts to protect electoral integrity and evidence of election interference, as well as media attention, financial resources and other potential sources of influence.

Separating Church from State
NOV. 2
David Diskin, Instructor
Although the words “separation of church and state” never appear in the U.S. Constitution, this phrase from Thomas Jefferson has impacted our lives and freedoms ever since the U.S. Supreme Court referenced it in 1879. But what do these words mean? Why was Jefferson affirming this separation? And, how has the First Amendment’s establishment clause been used to defend the rights of the religious and non-religious at every level of our government? Lecturer David Diskin discusses the history of these words and their impact, along with recent decisions that protect religious freedom and the conflicts that arise between opposing worldviews in our courts and our lives.

It will also examine the impact of any political realignment on prospects for government action and polarization over the next four years.

This talk provides scientific facts and data about climate change and offers solutions to what could be far more devastating than any other disaster ever seen by humankind. This interactive presentation provides ample time for questions and comments, especially from the opposing views on climate change.

OLLI IS LOOKING FOR VOLUNTEERS!

If you want to get involved with Pacific, becoming an OLLI volunteer is a wonderful way to make this happen. OLLI is an organization that depends on the involvement of its members to function and grow. We are looking for individuals who would like to lend their skills to the day-to-day administration of classes. We are specifically looking for members who would be a classroom “host.”

Duties include:
Assisting instructors by preparing their classrooms, taking attendance, assembling course materials, assisting with technology, greeting students, answering questions or concerns, arriving 15–20 minutes early and serving as a liaison for members. The classroom host would receive a discount of class/course fee. One host per class/course is needed. (Does not include Lectures, EdVentures or travel.)

If you are interested, please complete the form on our website OLLI.Pacific.edu.

NEW REFERRAL PROGRAM:
Please share the wonder of OLLI with friends and family. For the fall 2020 session, OLLI is rewarding current members for referring new members. Earn a $15 voucher/code for referring a new member. You can use the $15 voucher/code toward one class, course or EdVenture (does not include travel and cannot be applied toward membership fee). Referrals are unlimited and must be used within the academic year that they are received (2020–21.)

- The new member must be completely new to our program, rather than a lapsed member.
- The referring member must complete the referral form on our website OLLI.Pacific.edu.
- The new member must enroll and pay for membership.
- The new member must put the name of the referring member on the registration form.

SCHOLARSHIPS ARE AVAILABLE!
This semester, we are offering scholarships to returning and new members. We are especially encouraging those who may have faced financial hardship due to the COVID-19 pandemic. This scholarship is available on a first-come, first-served basis and covers your membership fee. It does not include any other fees or costs. Scholarship applicants will not be asked for any financial information.

☐ Check box on your registration form to apply.
PLEASE CONTACT OUR OFFICE AT 209.946.7658 TO FIND OUT MORE.
