MOVING CALIFORNIA

cleaner transportation for all communities

Stockton Mobility Collective is a project led by the San Joaquin Council of Governments and made possible by a grant from the California Air Resources Board.

WWW.SJCOG.ORG/SMC

THE STOCKTON MOBILITY COLLECTIVE PARTNERS

The Project: The San Joaquin Council of Government's (SJCOG) Stockton Mobility Collective project is aimed at improving transportation options for people in Stockton who are looking for clean, affordable ways to travel to jobs, schools, healthcare, and other key destinations. The project will provide access to electric carsharing and bikesharing programs and incentives to reduce the cost burden of transportation where the need is greatest.

The Funding: The project is made possible by a \$7.4M Sustainable Transportation Equity Project Grant from the California Air Resources Board.

Who We Are: SJCOG is the regional planning agency in San Joaquin County responsible for transportation planning, habitat conservation planning, managing the Measure K transportation program as well as housing, air quality and airport land use planning.
