

University of the Pacific Arthur A. Dugoni School of Dentistry
127th Alumni Association Annual Meeting – 2026 Alumni Weekend
Including The 40th Frederick T. West Orthodontics Lectureship and
The 3rd Alan H. Gluskin Endodontics Symposium

Lon McRae, DMD

Friday, January 23, 2026

1:00 pm – 4:00 pm (includes 30-minute break)

2.5 CE units

Subject Area: Implants and Prosthetics

Title: "All-In or Nothing: Guided Implantology Without Limits"

Course Description:

This session kicks off by breaking down the All-In-Implant system's planning workflow and digital surgical guide design. Participants will explore case selection, digital scanning, and treatment planning that remove the guesswork from full-arch and single-unit implants. Real-world examples highlight how to predictably adapt to challenging anatomies and patient expectations. Attendees leave ready to plan with confidence and think beyond traditional limitations.

Objectives:

- 1) Learning to adapt with pre-planning and diagnostic steps for guided implant treatment.
- 2) Explain what's new with the All-In-Implant protocol.
- 3) Utilizing the latest in prosthetics for optimal aesthetics outcomes.
- 4) Implement best practices for immediate loading and soft-tissue management.

Short Bio:

Meet Dr. Lon McRae, a dedicated dental professional whose journey is characterized by a deep passion for learning and a humble approach to all aspects of dentistry. Dr. McRae's career is built on a foundation of educational pursuit, embracing the latest advancements in technology and technique to enhance patient care. Dr. McRae graduated from Oregon Health Sciences University School of Dentistry in 1996 and has since had a successful practice in Meridian, Idaho. He has continued his dental education with some of the most advanced functional and aesthetic courses available in dentistry. In 2000, Dr. McRae received an advanced degree from Pacific Aesthetic Continuum, one of the world's most respected cosmetic dentistry training programs. This commitment to additional training keeps Dr. McRae up to speed on the latest developments in dental technology and materials, allowing him to provide the highest standard of care and comfort to his patients. Dr. McRae is also a partner and airway provider at Breathe Airway in Meridian, affiliated with The Breathe Institute to help those struggling with sleeping, breathing, and airway disorders. After training with the nation's leading aesthetic dentists, Dr. McRae has

been a sought after instructor at many dental schools and teaching institutions across the nation for various subjects like airway, cosmetic, and implant dentistry. At the heart of Dr. McRae's work is a genuine love for implant dentistry, a field where he has made significant contributions while always seeking to learn from his peers. His involvement with the International Academy of Dental Implantology (IADI) as a Past President and a Diplomate reflects not only his expertise but his ongoing commitment to community and professional growth. Dr. McRae's participation in esteemed dental associations like the Crown Council Dental Association, American Dental Association, and the International Congress of Oral Implantology (ICOI) mirrors his dedication to the broader dental community. His leadership roles and recognitions, including Fellow at the International Academy of Oral Medicine and Toxicology (IAOMT) and Master at the IADI, highlight his desire to contribute positively to the field. Dr. McRae values the opportunity to share his knowledge and teaching. His approach to teaching is shaped by a belief in the power of mentorship and the importance of passing on wisdom to inspire the next generation of dentists.
