

4-Year & 6-Year Pacific New Freshmen Graduation/Outcome Rates

	4yr Rate	6yr Rate
■ New Freshmen graduation rate (full-time bachelor degree seeking students only, excludes PharmD/DDS)	48%	67%
■ New Freshmen graduation rate (all freshmen, including PharmD/DDS)	45%	68%
■ New Freshmen outcomes rate (all freshmen, advancing PharmD/DDS students included in rate)	53%	71%

Notes:

1. Data represents the 2011 cohort which was reported to IPEDS in 2019.
2. All of the above rates are required by IPEDS in either the Graduation Rate Survey or the Outcomes Survey (Outcomes Survey was a new survey beginning in fall 2015).
3. The new IPEDS outcome rates are not published anywhere (4yr rate = 53% and 6yr rate = 71%).
4. The graduation rates for bachelor degree seeking students (excluding PharmD/DDS) are the most frequently published rates (these rates are required by publications such as U.S. News) (4yr rate = 48% and 6yr rate = 67%).
5. Outcome rate includes new freshmen students from a full year cohort (July 1, 2011 to June 30, 2012) whereas graduation rates only include students from Fall 2011. Students who advanced from a pre-professional program to Pacific's PharmD or DDS program without receiving a bachelor's degree are included in the outcome rate.
