Multiple license plates may be entered for one permit but only one vehicle is allowed on campus each day. When two or more vehicles registered to the same permit are located on campus in the same day all vehicles will be cited.

You will no longer receive a physical permit. Under the new virtual system, your license plate functions as your permit. You only need to check your email for a confirmation email showing that your permit purchase was approved. Also, please make sure your vehicle has a front and back license plate.

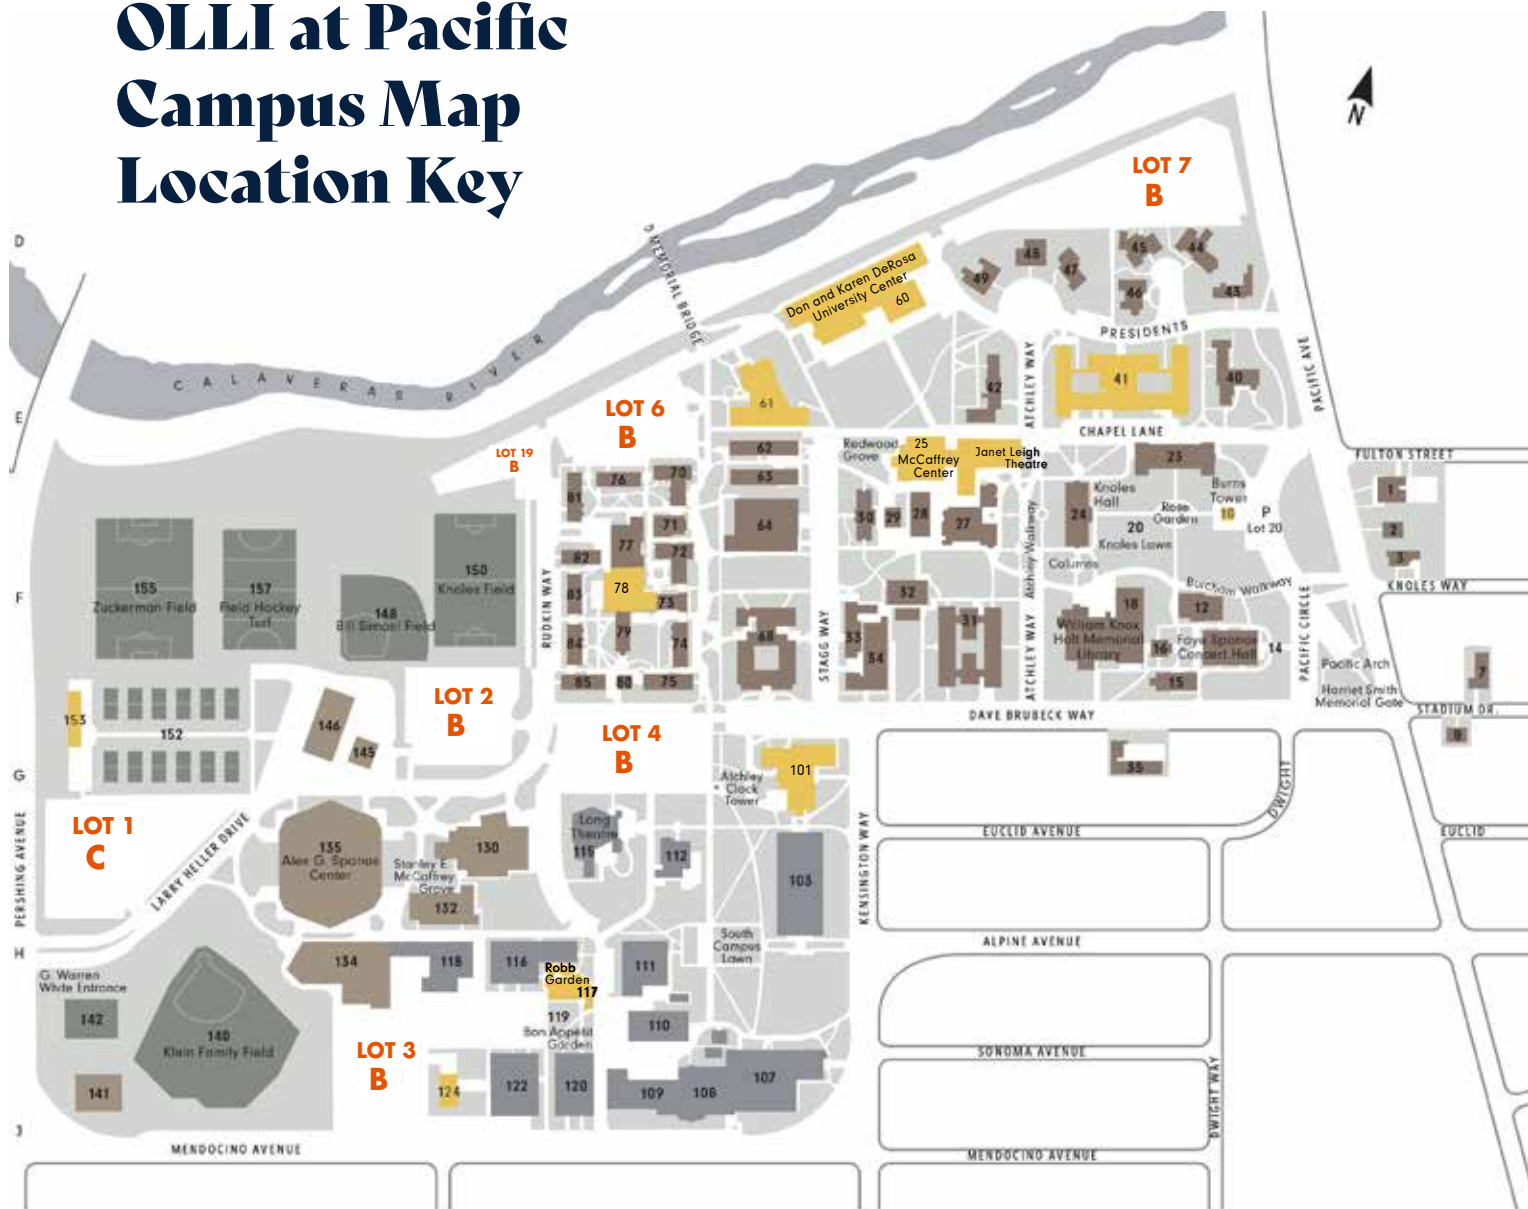

All motor vehicles are brought onto the university grounds at the owner's risk and the university undertakes no responsibility for their safety or security. The university is not responsible for loss or damage to property arising from bringing a motor vehicle onto any university grounds. There are no refunds, upgrades or downgrades for purchased parking permits. All purchases are final.

For more information about campus parking, check out the university's FAQ page:
